

Create Moments that Matter

Encourage conversation and development as part of your company rituals with RedCAT Systems. With our technology, foster transparency through data-driven insights and drive moments that matter.

Compensation & Talent Configurable Solutions

- **Compensation Management:** Designed with the compensation professional in mind. With our cycle wizard and formula builder—run a compensation cycle on your time.
- **My Portal:** As part of compensation management, enable your employees to access their grant award history and place in the market.
- **Performance Management:** Integrated to enable data flow throughout, resulting in enhanced insights, analytics, and outcomes.

Innovation Lab Custom Experience

- Create a custom experience tailored to your organization
- Partner directly with our team from proof of concept through implementation
- Solve for your complex compensation and performance management needs
